The International Software Testing Qualification Board (ISTQB) has already effected profound change in the software testing field, with over 100,000 people having attained Foundation certification. But a Foundation certification is just that: only a Foundation. With the release of the new Advanced syllabus in October 2007, the ISTQB expanded and improved the next rung on the ladder of test professionalism. In this Webinar, Rex Black, former President of the ISTQB, explains how the ISTQB Advanced syllabus can guide you, your testing colleagues, and your organization toward better testing, reduced risk, and higher quality.

Title: *ISTQB Advanced Certification*

Date: Wednesday, August 5, 2009

Time: 1:00 PM - 2:30 PM CDT

After registering you will receive a confirmation email containing information about joining the Webinar.
